ASSEMBLY BILL

No. 2128

Introduced by Assembly Member Emmerson

February 20, 2008

An act to add Section 1265.4 to the Health and Safety Code, relating to health facilities.

LEGISLATIVE COUNSEL'S DIGEST

AB 2128, as amended, Emmerson. Health facilities: dietitians.

Under existing law, the State Department of Public Health licenses and regulates health care facilities. ~~Violations~~ *Violation* of the provisions constitutes a misdemeanor.

This bill would require that specified health facilities employ a full-time, part-time, or consulting dietitian. The bill would require those facilities that employ a registered dietitian less than full time *to* also employ a full-time dietetic services supervisor. The dietetic services supervisor would be required to receive frequently scheduled consultation from a qualified dietitian and meet educational requirements, as specified. This bill would allow the department to issue a program flexibility request to a facility to exempt from the educational requirements any individual who has been working full time as a dietetic

services supervisor in a health facility for 5 years or more when the bill becomes operative and allow them to continue to function as a dietetic services supervisor for 18 months as long as they are enrolled in a specified education program. The exemption could be extended an additional 6 months if the individual can demonstrate to the department that the education program could not be completed within the original 18-month period. The bill would require program flexibility requests to be submitted not later than December 31, 2009. By creating a new crime, this bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Vote: majority. Appropriation: no. Fiscal committee: yes.
 State-mandated local program: yes.
